

Accounts Receivable Aging Analysis

Willowbrook Landscaping Co. | Reporting Period Ending July 31, 2026
Prepared from QuickBooks Online A/R Aging Summary and Detail reports

Executive Summary

As of July 31, 2026, Willowbrook Landscaping Co. has **\$10,960.00** in open receivables across seven customers. Total invoiced was \$12,060.00, so \$1,100.00 has already been collected during the period. Just over half the balance (56%) is Current or 1–30 days, which is a healthy sign. The bigger issue is the **31–60 day bucket, which makes up \$4,520.00, or 41% of total A/R**, and is mostly tied to two customers. Only one invoice has reached 61–90 days and nothing is past 90, so nothing here is a write-off risk yet, but the mid-aged accounts are worth chasing before they slip further.

TOTAL OPEN A/R	CUSTOMERS	LARGEST BUCKET	PAST DUE %
\$10,960.00	7	31–60 days	71%

Past due % = balances outside the Current bucket (\$7,770.00) as a share of total open A/R.

Aging Distribution

Breaking total receivables down by bucket, the 31–60 day range is where most of the risk sits right now. The 61–90 day bucket is small and comes from a single invoice.

A/R Aging Distribution by Bucket

Bucket	Amount	% of Total
Current	\$3,190.00	29%
1 - 30 days	\$2,915.00	27%
31 - 60 days	\$4,520.00	41%
61 - 90 days	\$335.00	3%
91+ days	\$0.00	0%
Total	\$10,960.00	100%

Exposure by Customer

Oak & Vine Winery owes the most overall at \$4,350.00, but it's split between Current and 1–30 days, so it's not a collections problem. Pinehill HOA is the second-largest balance and is the main reason the 31–60 day bucket is so high.

Composition by Aging Bucket

Splitting each customer's balance by bucket shows who's aging in place versus catching up. Pinehill HOA, Coastal Realty Group, and Thompson Residence each have their whole balance sitting in the 31–60 day range, which makes them the ones to call first.

Notable Findings

- **Partial payments already applied.** Two invoices were partially paid before the report date: Bright Horizons Preschool's Invoice 1004 (billed \$1,200.00, \$500.00 still open) and Riverside Apartments' Invoice 1013 (billed \$675.00, \$275.00 still open).
- **Credit memo netted against aging.** Coastal Realty Group has a \$75.00 credit memo (CM-2001) netted into the 61-90 day bucket on the summary report. Without it, that bucket would show the full \$850.00 invoice instead of a net \$775.00.
- **Summary and detail tie out.** Bucket totals and the grand total match exactly between the two reports (\$10,960.00 open on both), so there's nothing to reconcile.
- **Nothing seriously overdue.** No invoices have crossed 90 days, and only \$335.00 (3% of total A/R) is past 60 days, all from one invoice for Dr. Sarah Chen, DDS.

Recommended Actions

- Reach out to Pinehill HOA and Coastal Realty Group first — they're the two biggest balances in the 31-60 day bucket and closest to slipping into 61-90.
- Follow up on Invoice 1006 for Dr. Sarah Chen, DDS (\$410.00, 61-90 days), the most aged open item, and double check the CM-2001 credit was applied correctly for Coastal Realty Group.
- Keep an eye on Thompson Residence — the full \$540.00 balance is one invoice with no partial payment yet.
- No changes needed on Current and 1-30 day accounts. They're more than half of total A/R and aren't showing any delay.

Prepared as part of a bookkeeping and financial analysis practice portfolio, based on QuickBooks Online-style A/R Aging Summary and Detail reports for a fictional client, Willowbrook Landscaping Co.
